

TEXAS EQUAL ACCESS FUND

MAKING REPRODUCTIVE RIGHTS A REALITY

We help people who need abortions.

Texas Equal Access Fund provides financial assistance and emotional support to people who need help accessing abortion care in the northern and eastern regions of Texas, including the panhandle.

- Our Help & Text Lines connect our callers to us so we can help them navigate barriers to abortion or connect them to our support networks.
- The Virtual Clinic Companion program provides one-on-one support to abortion seekers via text during their procedures.
- PATH (Post Abortion Truth & Healing) is our peer support group. This is a safe and confidential space made exclusively for people who have had abortions led by folks who have had abortions.
- We are able to provide this support thanks to the hard work of our staff and our TEAM of expertly trained volunteers.
- Volunteer Clinic Escorts help people seeking abortion navigate anti-abortion protesters as they go from their cars to the clinic door for their appointments.
- Our social media programming focuses on education and abortion stigma busting while providing opportunities for folks to get involved. Make sure you follow us!
